

## Lyrics to Breathless

### **Lately I Don't See You Anymore**

Clouds of smoke and glass hit so hard that I was  
Knocked on my ass  
Saved the best for last is that what you told me?  
No, it comes and goes it's just the same old story that everybody knows  
So when you walked right through my open door  
Who was it for?  
'Cause lately I don't see you anymore

Got myself on track, hit me like a freight train  
Why d'you come back?  
One more heart attack, you got what you wanted  
No, it comes and goes it comes and goes this feeling that everybody knows  
So when you walked right through my open door  
What was the score?  
'Cause lately I don't see you anymore

No, it comes and goes it comes and goes these tears I'm trying not to show  
And when you walked right through my open doors  
Pointing to the signs I can't ignore  
I'm on my knees all curled up on the floor  
'Cause lately I don't see you anymore

### **Break Your Fall**

Throw the dice  
I try  
But luck's not on my side  
Stand by  
Big sigh  
All these years I've chipped at the walls to crumble & break  
Pounding the floors they rumble and shake inside  
You can shine but never see the light

Falling into the clouds no parachute at all  
Closing your eyes so tight before you hit the wall

You'll be the one to break your fall

Time's not on my side

I won't be denied

My eyes on the prize

Still you feel like

Everyone runs when you learn to crawl

They hit the fence but you've missed the ball this time

Wrote the words but still can't make it rhyme

Tearing down the fears that make you want to run the other way

Glass on the clock now has shattered and stopped today

Falling into the clouds no parachute at all

Closing your eyes so tight before you hit the wall

All of this time you thought you'd be so far by now

Taking a breath before you jump from off the bow

You'll be the one to break your fall

### **Lullabies**

Powder blue

dusk comes in and darkness grew

Talking to walls as if they always knew

On delay had my pain all locked away

Hard to take couldn't just go on that way

In my mind

Story times and nursery rhymes

It's not too late to ease this ache

Lullabies

Fill my tired heart and dry my weary eyes

Tell me everything is going to be alright

Close the door turn out the light

Say you'll stay and sing to me tonight

Pink and red

Sun is bright upon my bed  
Words I've said floating round inside my head  
Breathing hard 'cause I don't know where to start  
On my guard to satisfy my broken heart  
Baby blue crawling through these thoughts of you  
These dreams of late, they're hard to shake

### **I Didn't Know**

Please  
Stay with me awhile  
Love is hard to find  
But you don't need to try  
We need to step outside  
Stars will light the sky  
A million reasons why

All these pieces falling into places high and low  
You turn my head and start the show I didn't know

We come into your door  
Want a little more?  
What you waiting for...  
Feels nothing like before  
Waves against the shore  
Left me on the floor

Chorus

Break

Double Chorus  
You turn me on let's start the show I didn't know

### **Breathless**

Stare down from up above  
Breathless on the ground  
None but a lonely dove  
Lost but still not found

Free fly never die

Point me to the sky

I was alone and out of time  
Shed my disguise  
Breathless  
Waiting for nothing at all  
Mmmmm

Free fly never die  
Tell me it's alright

You were alone and out of time  
Said my goodbyes  
Breathless  
Waiting for nothing at all

### **Unbroken**

In this little place  
Underneath the sun  
Past is now erased  
Waiting for no one  
All this time that I have chased  
The love that I could not embrace  
Now I am the one  
who must fill that space  
No words need to be spoken  
Not in this perfect moment

And all this time  
The tears couldn't wash away  
The heart that I had tried to hide  
The love inside  
Is gathering every day  
So dry your eyes it's here to stay

Darkness used to be  
Very hard for me  
Sifting through debris  
I could hardly breathe  
Restless nights no guarantee  
That this would be enough for me  
Nowhere left to run

I'd have to be one  
And then the sunlight opened  
My heart became unbroken

## **Undone**

Get off my back  
Can't take the weight anyway  
You won't shut up  
Though there is nothing to say

What's the point in trying to pretend it's alright  
Just to get it wrong  
I have come undone

You'd think that I'd  
be more accustomed this way  
This weight it clings  
Covers like grey cellophane

What's the point in talking to myself all night  
Just to face the day  
I have come undone

Hey

What's the point in trying to pretend at all  
Just to fade away  
I have come undone

## **Sweetest Hush**

Frozen in this place  
Could you feel my body?  
Shocked electric haze  
Running through your fingers  
And you, this long embrace  
Is all I want beside me

And from the bottom up  
You touch me with your love  
Am I burning hot enough for you? (Oh woah)

I can't get enough  
I'm barely standing up

Your heart is like a drug I do (oh yes I do)  
And that's the sweetest hush I hear  
This close to you

Stopped right in my tracks  
Could you please forgive me?  
If I confuse the facts  
Of gravity behind me  
Am I your opening act  
Or would you still headline me?

And that's the sweetest hush I hear  
This close to you

### **Crown Victoria**

Hey Hey, my old friend  
You won't let me in  
Bottle of gin,  
Broken like promises again, no...

Hey Hey, watch me go  
I can't stay, I know  
I look too small  
In back of this  
Crown Victoria, you know

Once I get inside  
I bow down  
Bulletproof glass  
Is all around  
Once I was lost  
But now I'm found

Hey Hey, I can't win  
You know the state I'm in  
When I get out  
Maybe I'll call you up again, you know...

When I get inside

I bow down  
Bulletproof glass  
Is all around  
Once I was lost  
But know I'm found  
No handles inside  
Won't let me out

I'm one in a million

### **Ghost**

Saw you by the door  
Just a figure coming in and out of frame  
Heart was beating fast and hard but you were gone when I looked away

We all fade away into night  
Fade away every day  
Fade away into us

One last look before  
I breath in and close my eyes and darkness comes  
Something in my heart begins this feeling again but you never know

We all fade away into night  
Fade away every day  
Fade away into us

We all fade away into night  
Fade away every day  
Fade away into us

Saw you by the door  
Just a figure coming in and out of frame
